

May 28, 2020

Dear Pathways Families,

This school year is almost over! All student coursework for the 19/20 year must be completed by June 12th. Please make sure that students complete any outstanding units for the current classes that are assigned, including online classes in Edmentum. Teachers will be sending planning guides home for every student so we can all see the progress that was made over the year. You can also request a virtual parent teacher conference to review the guide with your child's teacher. Please let us know if you plan to continue enrollment with Pathways In Education next school year so we can ensure you have a spot!

Graduation update: with the ever-changing guidelines around large public gatherings, we have decided on a virtual graduation ceremony. We are working to make it awesome for all the 2020 graduates and will have a date secured soon with more information to follow. We are so proud of these students that have crossed the finish line and can't wait to celebrate them in this new way!

As always, we are following updates from state and county authorities regarding guidance on when and how to reopen our building to student attendance. It is our hope that we will be able to offer in-person appointments and classes in the fall, but we also want to ensure that students and staff are safe. We will keep you posted!

We hope you are all enjoying the sunshine as much as we have been.

Pathways In Education Staff
